Our Purpose: The annual CCI-USA Workshop enables co-counselors from around the United States and the world to come together to validate, discharge and re-evaluate using the co-counseling process. We share our knowledge, skills and experience and celebrate our differences in an atmosphere of safety, growth, warmth and caring.

We gather to build and practice our skills in co-counseling and to enjoy the energy and warmth of community. The workshop provides time and space for personal reflection and sharing. It is an opportunity to check in with our inner selves and to acknowledge the strength and beauty of CCI communities across the United States and the world.

We celebrate our fellow co-counselors who travel from distant parts of the USA and the world to share their love of co-counseling. They enrich the workshop immeasurably.

You are warmly invited to join us for this very special gathering!

An appreciation...

"I thank the USA co-counseling community for creating and maintaining the culture of validation... there is a deep safety in it that allows me to continue my healing journey, learning to live at a deeper level.

– Gavan Riley, New Zealand co-counselor
