Attendance Expectations:

Home Practice: Your home practice will consist of weekly reflections and occasional journaling or worksheets, and to practicing newly learned skills with a classmate each week. At first, this will take about 20 minutes and gradually work up to an hour commitment outside of class each week.

Making class a priority: Please be on time and try not to miss any classes; nothing is as good as participating in the actual training with others in the class. Your presence matters!!! If you must miss a class, please notify me ahead of time. You may catch up by watching a recording of the class and/or will be paired with someone who will review information with you. Missing more than two classes may jeopardize your ability to successfully complete the training.
